

2008 ACTSES Chief Officer's Certificate of Appreciation

Leigh Kefford

Leigh Mr Kefford joined the ACTSES in 20/8/05 and was a very enthusiastic member of Rivers who was always keen to learn and participate. Within a very short time, Leigh had taken on the role of 'Community Events Co-ordinator for Rivers. He had also made a huge headway towards a very successful website to get the Rivers Unit out to the Community.

Due to family circumstances, Leigh had to leave the ACT, and Rivers Unit, to move to Townsville, QLD. To our surprise and delight, Leigh offered to continue to build on the Rivers website, and host it on his server. With the support of the Rivers SES Exec, Leigh has created a masterpiece, and continued to be a very valued 'external' Rivers member. To view the quality of his workmanship, please see <http://www.nationalpc.com.au/ses/index.htm>

The Rivers website has provided the Rivers Unit with a professional and easily accessible gateway to the public. This is a tool to aid recruitment, and information sharing to both the public and members of the Unit (by way of the Members Area which includes information about current training, contact details and policy, among other things.

Leigh has been supported and given information and ideas by the Rivers Unit Exec, but has developed and maintained the website independently.

The development and maintenance of the website was already a great contribution, but when Leigh left, and continued to put such a huge effort into the Unit, it makes him very deserving of the award.

This award is an additional and public way, of saying a huge

Thankyou!
